## ELLEN GRIFFITH

Ms. Ellen Griffith is the Vice Director, Warner Robins Air Logistics Complex, Robins Air Force Base, Georgia. The WR-ALC performs programmed depot maintenance on all variants of the F-15, C-5, C-130, C-17 and special operations forces aircraft in the restoration, modification, and repair of aircraft, equipment, avionics and airborne electronics. WR-ALC also provides a ready source of critical item maintenance and repair by supporting peacetime maintenance requirements, meeting wartime emergency demands, and accomplishing expeditionary aircraft maintenance and repair. WR-ALC is also a leading developer and sustainer of weapon system software and test program sets.

Prior to assuming her current position, Ms. Griffith was the Business Operations Office Division Chief for the Warner Robins Air Logistics Complex serving as the Complex level authority for workloading, human capital management, acquisition support, partnering and business development.

Ms. Griffith is a 1983 graduate of the Georgia Institute of Technology and entered federal service in 1984 as an industrial engineer in the Directorate of Distribution at Robins Air Force Base, Georgia. After serving as an engineer in the Avionics Division in the Directorate of Maintenance, she served in various leadership positions throughout the Warner Robins Air Logistics Center in the areas of process engineering, environmental management, transformation, strategic planning, aircraft maintenance, electronics maintenance, and commodities maintenance. She also served as a career broadener at Headquarters Air Force in Depot Maintenance Policy and as the Depot Operations Division Chief at Headquarters Air Force Materiel Command.
